

Security has arrived.

PARAGON™

PARAGON™

## More than the sum of its parts.

The Garrett *Paragon* is a culmination of the best attributes of its predecessors, but also introduces never-before seen setup and operation features, as well as a distinct and pleasing new aesthetic. Modern security systems need a metal detector that is connectable, adaptable, and reliable. *Paragon* is all of that and more.

## A model of excellence.

*Paragon* sets the bar for the future of security metal detection with its user-empowering features and high-performance detection capabilities. Catch the ferrous and non-ferrous metallic contraband you want to find with more program options than ever and improved sensitivity.

## Diverse applications.

From stadiums to courthouses and theme parks to office buildings, *Paragon* has the flexibility to serve the needs of your moment. Respond in real-time with easily adjustable settings and superior mobility, ensuring that surprise traffic changes or unexpected VIPs never leave your security system scrambling.

**GARRETT**<sup>®</sup>

Let your crowds leave their worries at the checkpoint. With *Paragon*, you can have confidence in your security screening.

**GARRETT**<sup>®</sup>

**IP 65.** Exacting construction ensures all-weather performance and dust/water resistance.

**Secure cabinet.** Key-locking cabinet protects UPS and other internally mounted accessories from weather and unwanted intrusion.

**GARRETT®**

**High-visibility pacing lights.** Allows patrons and staff to clearly see entry-readiness of the detector in indoor or outdoor lighting conditions.

**Sophisticated design.** *Paragon's* smooth and trim structure is as at-home in an office building as a stadium.

**GARRETT®**

**NFC chip card capability.** Card reader allows settings adjustment without mechanical insertion, meaning less wear and fewer card replacements.

**Bluetooth®.** Integrated Bluetooth connectivity allows silent operation in noisy or formal security environments.

**Cellphone discrimination.** Optional settings allow cell phones to be ignored while still catching mass casualty weapons.

**66 zones.** Granular awareness of alarm area top-to-bottom and left/middle/right reduces time for secondary screening.

**Dual-sided detection.** Bilateral detection provides an evenly distributed detection strength across the archway.

**GARRETT®**

## Top-of-the-line security.

Enter *Paragon*. For security supervisors unwilling to compromise on security results, Garrett's *Paragon* walk-through metal detector is a game changer.

Powerful performance meets new heights of flexibility and ease-of-use in a fresh, sophisticated package.

Paragon™ Walk-Through Metal Detector
